

CURRICULUM VITAE

Personal Information	
First Name:	Zahra
Last Name:	Heydarifard
Professional Title/Position:	Assistant Professor
Highest Degree:	PhD in medical virology
	
Affiliation:	Department/Division: Virology department
	University/Institute: Lorestan university of Medical Sciences
	City: Khorramabad
	Country: Iran.
Education qualification	<p>1- September 2017- April 2022 Tehran University of Medical Sciences: Tehran Ph.D. in Medical Virology</p> <p>2- September 2014- November 2016 Golestan University of Medical Sciences, Gorgan Master in Medical Virology</p> <p>3-September 2010-May 2014 Lorestan university of medical sciences, khoramabad Bachelor in medical laboratory sciences</p>
Research Experience	<p>PhD Project: Assessment of association of tonsillar hypertrophy in children under age 16 with lytic and persistent HAdV-C infection compared to the healthy control.</p> <p>Master Project: Evaluation of CCR5Δ32 Polymorphisms in HIV infected persons and healthy control</p>
Professional Experience:	<p>Proficient in a wide range of scientific techniques and methodologies including DNA and RNA extraction, Isolation of acid nucleic from tissue, PCR, RT-PCR, Real-time PCR, cloning, cell culture</p> <p>-experiencing in setting up viral mRNA expression as qualitative and quantitative measurement</p> <p>- Special expertise in primer probe design and phylogenetic analysis</p>

	<ul style="list-style-type: none"> - Extensive hands-on experience in conducting experiments and research in these fields
membership	<ul style="list-style-type: none"> -member of brilliant talent organization of Golestan University of medical sciences, 2014-2016 -member of brilliant talent organization of Tehran University of medical sciences, 2016-2022 - member of Hepatitis Research Center, Lorestan University of Medical Sciences
International congress	<ul style="list-style-type: none"> -Attended the virtual conference and had a poster presentation: 'COVID-19, Influenza and RSV: Surveillance-Informed Prevention and Treatment', 19th-21st October 2021. -Attended and had a poster presentation "23 th international congress of microbiology", Tehran, Iran. 30 August- 1 September 2022. -Poster presentation in "16th international congress of immunology and allergy" Tehran, Iran. April 2023
Projects	<ul style="list-style-type: none"> -Detection of SARS-CoV-2 in paraffin-embedded placenta from women with spontaneous abortion during winter to summer 2022, Lorestan university of medical sciences. - Antibiotics resistance in COVID-19 patients in Iran: A Systematic Review, Lorestan university of medical sciences. - Investigation of the autoimmune thyroid disease (AITD) following SARS CoV-2 infection: a systematic review study, Lorestan university of medical sciences. - Evaluation of the prevalence of Human Papilloma Virus in women prisoners of Lorestan province in 2023, Lorestan university of medical sciences. - Investigation of SARS-CoV-2 Coinfection with Influenza virus (A,B) and Respiratory Syncytial Virus (RSV) in clienteles' suspected to COVID-19 in summer-fall 2022, Lorestan university of medical sciences. - Investigation of lytic and latent adenovirus infection in children with tonsillar hypertrophy compared to healthy control group, IR.TUMS.SPH.REC.1398.162, Tehran university of medical sciences. - investigation of adenovirus genotype and viral load in two groups of children under 5 years of age with acute respiratory infection and without respiratory symptoms, IR.TUMS.SPH.REC.1400.043, Tehran university of medical sciences. - Identification of microbial pathogens in patients with

	<p>respiratory tract infection using Multiplex Real-Time Polymerase Reaction (PCR) technique, IR.TUMS.SPH.REC.1400.165, Tehran university of medical sciences.</p> <p>-Examining the prevalence and viral load of Epstein-Barr virus (EBV) in tonsil tissue of children with tonsillar hypertrophy, IR.TUMS.SPH.REC.1401.071, Tehran university of medical sciences.</p> <p>- Investigation of SARS-CoV-2 infection in domestic and wild animals and the possibility of its transmission to humans: A Systematic Review, IR.TUMS.SPH.REC.1401.055, Tehran university of medical sciences.</p>
Books	-Emerging viruses, publisher: Lorestan university of medical sciences, ISBN:9786227381887
Reviewer of journals	BMC Microbiology, impact factor: 4.6
Publications:	<p>- Heydarifard Z, Tabarraei A, Moradi A. Polymorphisms in CCR5Δ32 and risk of HIV-1 infection in the southeast of Caspian Sea, Iran. Disease markers. 2017;2017.</p> <p>- Heydarifard Z, Safaei M, Zadheidar S, Ehsan S, Shafiei - Jandaghi NZ. Mucormycosis infection in severe COVID - 19 patient with multiple underlying health conditions. Clinical Case Reports. 2021;9(10):e05009</p> <p>- Heydarifard Z, Tabarraei A, Abdollahi N, Moradi A, Khanjari Y. Evaluation of CCR5Δ32 polymorphism in patients with systemic lupus erythematosus and healthy individuals. Medical Laboratory Journal. 2018;12(2):38-43</p> <p>- Heydarifard Z, Zadheidar S, Yavarian J, Shatizadeh Malekshahi S, Kalantari S, Mokhtari - Azad T, et al. Potential role of viral infections in miscarriage and insights into the underlying molecular mechanisms. Congenital Anomalies. 2022;62(2):54-67.</p> <p>- Heydarifard Z, Zadheidar S, Yavarian J, Kalantari S, Nejati A, Mokhtari-Azad T, et al.
