

1. Personal and Contact Information:

First and Last Name: Tabasom Zavari

Academic Rank: Assistant Professor

Personal Email: tabasomzavari@yahoo.com

Academic Email: Zavari.t@lums.ac.ir

Mobile Number: +98 912 697 4569

Office Phone Number:

Fax Number:

Date of Birth: 1972/6/6

Marital Status: Married

2. Education:

MD: School of Medicine, Lorestan University of Medical Sciences, Khorramabad, Iran

MD Thesis: "*Study of risk factors for ischemic heart diseases*"

supervisor: Dr. Mehrdad Namdari, 1999

Resident: Infectious Diseases department, School of Medicine, Tehran University of Medical Sciences, Tehran, Iran

Resident Thesis: *"Evaluation of interleukin 6 levels in the prognosis of patients with hepatitis C and response to treatment"*

Supervisor: Dr. Haji-Abdolbaghi, 2016

3. Awards & Honors:

4. Scientific Position:

1. Assistant Professor of Medicine (Department of Infectious Disease , Lorestan University of Medical Sciences, 2016 to present)

5. Executive Position:

6. Teaching Experiences:

- Infectious diseases course for Medical students
- Educational courses/workshop : Prevention, treatment and Immunization against H1N1 .Brucellosis,Dengue fever .Antibiotics
- Clinical Education for medical students (**inpatient / Outpatient**)

Clinical Experiences:

- ✓ **MD:** General Practitioner at Shahid-Rahimi Hospital, Khorramabad, Iran, 1999-2001
- ✓ **MD:** General Practitioner at Hospital of Social Security Organization, 2001-2003

- ✓ **MD:** Board of Infectious and Tropical Diseases, Infectious Department of Shohadaye-Ashayer Hospital

7. Research Field:

- ✓ *COVID 19*
- ✓ *HIV*
- ✓ *Hepatitis C*
- ✓ *Brucellosis*
- ✓ *Bacteremia*
- ✓ *Taking Antibiotic*

8. Research projects :

- 1- The effects of a new drug delivery formulation based on albumin nanoparticles on treatment of Covid-19 infected patients, 2023
- 2- The prevalence of drug treatment failure (PI/NNRTI/NRTI/INSTI) in patients with HIV/AIDS referred to behavioral disease counseling centers in Khorramabad, Iran based on Virological failure during 2012-2023
- 3- Evaluation of relative frequency of methicillin-resistant Staphylococcus aureus nasal carriers and the effect of mupirocin and chlorhexidine treatment on carriers among staff and medical students of Shahid Rahimi Hospital in Khorramabad in 1401
- 4- Evaluation of rs2285666 genetic polymorphisms of ACE2 and I / D angiotensin-converting enzyme 1 in patients with Covid 19 in mild, severe and critical forms in Khorramabad in 1400
- 5- Prevalence of the lung CT scan findings in patients with covid_19 pneumonia and positive RT-PCR in Khorramabad Shohadaei Ashayer Hospital in 2021
- 6- prevalence of covid 19 infection in vaccinated student in lorestan university of medical sciences in 1400
- 7- Evaluation of prognostic factors for Covid 19 infection after in the medical staff of Shahid Rahimi Hospital in Khorramabad in 1400

- 8- Investigation the relationship between underlying diseases and mortality of patients with Covid-19 in patients of Shahid Rahimi and Shohadaye Ashayer hospitals in Khorramabad, 2021
- 9- Evaluation of the liver enzymes(AST,ALT,ALK-P) in covid-19 patients in khorramabad's shahid rahimi hospital in 2020-2021
- 10- Investigation of frequensi of adverse effects of covid-19 vaccins used for older adults and related factors in Khorramabad, 2021
- 11- Comparative study of liver enzymes level in patients with hepatitis that they are chronic users of opioid and methadone derivatives in Lorestan 2020
- 12- Evaluation of laboratory indices of ferritin and CRP and its relationship with disease prognosis in patients with Covid 19 admitted to Shahid Rahimi Hospital in Khorramabad in the first Six months in 2021
- 13- Evaluation of the relationship between triage of Emergency Severity Index (ESI) and the outcome of hospitalized patients with Covid-19 in Shahid Rahimi educational and medical centers in Khorramabad 2020-2021
- 14- Evaluation of the relationship between abdominal pain in patients with covid-19 disease and its relationship with clinical and laboratory factors in these cases in the period from April to June 1400 in Shiraz and Khorramabad
- 15- Comparison of the effect of angiotensin antagonist drugs with other antihypertensive drugs on the clinical outcomes of patients with covid 19 with blood pressure problems, 2020-2021
- 16- Assessing the risk perception of Covid 19 disease in Emergency Department of Khorramabad Teaching Hospitals in 1399
- 17- Study of epidemiologic, clinical and laboratory findings in patient died by COVID19 in Khorramabad Shohadaye Ashayer hospital between April to September 2020
- 18- Prevalence of bacterial Hospital-Acquired Infections in ICU ward of shohaday ashayer Hospital of khorramabad, 2019
- 19- Investigation of frequency of adverse effects of covid-19 vaccins used for older adults and related factors in Khorramabad. 2021
- 20- Evaluation of the therapeutic effect of early administration of antibiotics in patients with covid 19 hospitalized in the intensive care unit of Shohada-e-Ashayer and Shahid Rahimi Hospital from October 2020 to June 2021
- 21- Comparative study of liver enzymes level in patients with hepatitis that they are chronic users of opioid and methadone derivatives in Lorestan 2020

- 22- Prevalence of bacterial Hospital-Acquired Infections in ICU ward of shohaday ashayer Hospital of khorramabad, 2019
- 23- Evaluation of epidemiological and therapeutic aspect of patients with Guillain-Barré syndrome referring to Shahid Rahimi hospital and Shohadaye Ashayer hospital in Khorram Abad from 2011 to August2020
- 24- Evaluation of clinical evidence with disease severity in patients with Covid-19 shohada hospital in year 2020
- 25- Investigation of the effects of prone position on respiratory status, hemodynamic, hospital stay and transfer to intensive care unit in patients with Covid-19: A randomized controlled clinical trial, 2020
- 26- Evaluation frequency of microorganisms requested cultures related to catheter infections in hemodialysis patients referring to Shahid Rahimi hospital in Khoramabad from the beginning of 1394 to September 1397.
- 27-

9. Supervisor:

- 1-** Evaluation of clinical evidence with disease severity in patients with Covid-19 shohada hospital in year 2020
- 2-** Evaluation of the therapeutic effect of early administration of antibiotics in patients with covid 19 hospitalized in the intensive care unit of Shohada-e-Ashayer and Shahid Rahimi Hospital from October 2020 to June 2021
- 3-** Investigation of CD4 level response to antiretroviral therapy in HIV patients
- 4-**Examining the frequency of drug resistance in HIV/AIDS patients with treatment referring to counseling centers in Khorram Abad city during the years 1390 to 1400.

10. Advisor:

- 1- The effects of a new drug delivery formulation based on albumin nanoparticles on treatment of Covid-19 infected patients, 2023
- 2- Evaluation frequency of microorganisms requested cultures related to catheter infections in hemodialysis patients referring to Shahid Rahimi hospital in Khoramabad from the beginning of 1394 to September 1397.
- 3- Investigation of the effects of prone position on respiratory status, hemodynamic, hospital stay and transfer to intensive care unit in patients with Covid-19: A randomized controlled clinical trial, 2020
- 4- Prevalence of bacterial Hospital-Acquired Infections in ICU ward of shohaday ashayer Hospital of khorramabad, 2019
- 5- Comparative study of liver enzymes level in patients with hepatitis that they are chronic users of opioid and methadone derivatives in Lorestan 2020
- 6- Investigation of frequency of adverse effects of covid-19 vaccins used for older adults and related factors in Khorramabad. 2021
- 7- Investigation the relationship between underlying diseases and mortality of patients with Covid-19 in patients of Shahid Rahimi and Shohadaye Ashayer hospitals in Khorramabad, 2021
- 8- Evaluation of the liver enzymes(AST,ALT,ALK-P) in covid-19 patients in khorramabad's shahid rahimi hospital in 2020-2021
- 9- Prevalence of the lung CT scan findings in patients with covid_19 pneumonia and positive RT-PCR in Khorramabad Shohadaei Ashayer Hospital in 2021
- 10-
